FUCHS

FOOD AND DRINKS

GOLDEN PHILOSOPHY

„ Food should not be determined by the need to eat but by ambiance, enjoyment, and taste.“

-Helmut Glaßl

We offer you what we like the most.

Food should be simple, healthy, nutritious, and delicious. That is why we believe in quality, good craftsmanship, and the distinctive taste of self-made products.

We love bread- an item with a lot of variations. A fine piece of craftsmanship is our selfmade whole grain-sourdough-bread with spelt and rye - the „Fuchsbrot“

With our range of products we want to support the local agriculture, that is why most of our products are supplied by local farmers.

Farm animal welfare and housing is highly important to us. We are convinced of a respectful treatment of animals. The demands of the producers are hereby more important than the certificate.

Food is a political topic to us- we support slow food and products such as palm oil are deliberately avoided.

Our to-go cups and containers are made from compostable materials and help us to protect the environment.

To minimize our carbon footprint we also decided against processing avocado.

How are we going to make a change as a small café?

By communicating with our guests.

Please feel free to talk to us if you have any questions, requests, or suggestions.
